5 Favourite Flowers To Give Mom On Mother's Day

One of the most time-honored, traditional gifts to give to mothers everywhere are flowers, which are always appreciated. Here are our recommendations for the five best flowers to give this Mother's Day.

Tulip

Tulips have many of meanings – and each differs depending on the color you choose. Purple represents royalty, for instance, while red is for romantic love. Pink is often said to represent affection and white could either represent cheerfulness or it could be given as an apology.

Orchid

The orchid is the flower to get for the trendy mother, the woman who loves new fashions, exotic stylings, and bold colors.

Carnation

The pink carnation specifically represents a mother's love, but white, which symbolizes pure or unconditional love and good luck, is another good choice.

Peony

Coming in shades of white, pink, red, and sometimes even purple, peonies make a great arrangement for Mom.

Rose

Roses are a classic, which makes them a great gift for the mother who tends to be traditional. Skip the red, which is typically associated with romance, and instead opt for pink, which represents appreciation, love, and gratitude. White is another good option because it symbolizes purity, and cream-colored roses are for thoughtfulness.
